

The St. Peter's and St. Paul's Change Ringing Society was formed in 1886 and 10 or 12 members ring regularly.

We have 8 bells in our tower, plus a tiny sanctus bell which is no longer in use. The smallest bell, the Treble, weighs 5cwt.2 quarters and 2lbs., whilst the heaviest, the Tenor, weighs in at 19cwt. and 1 quarter, very nearly a tonne. They are tuned to the key of E.

Bells numbered 4, 5 and 6 date back to 1774. The others have been recast since, with the whole peal tuned and rehung by Whitechapel Bell Foundry in 1952. The Whitechapel Bell Foundry took over Messrs Mears & Stainbank who originally cast the bells, whose Senior Partner, Alfred Silva Lawson, was a Past Master of the Skinners' Company and a Governor of Tonbridge School.
